

info@monacoblue.ca 4B-31 Durum Drive, Wheatland County, AB, Canada T1P 0S2 www.monacoblue.ca

The image shows a wall made of large, rectangular, ultra-thin stone tiles. The tiles have a mottled appearance with shades of grey, blue, and brown. In the foreground, there are two dark, textured vases. The larger vase on the right has a bulbous body and a short neck, while the smaller one on the left is more slender. The lighting is soft, highlighting the textures of the stone and the vases.

Ultra-thin stone

product description

Ultra-thin stone

specification

Enterprise brief introduction

product architecture

Specification: 610x1220x1220 mm

Classification: ordinary series, transparent series, woven series,
sandstone series, marble series

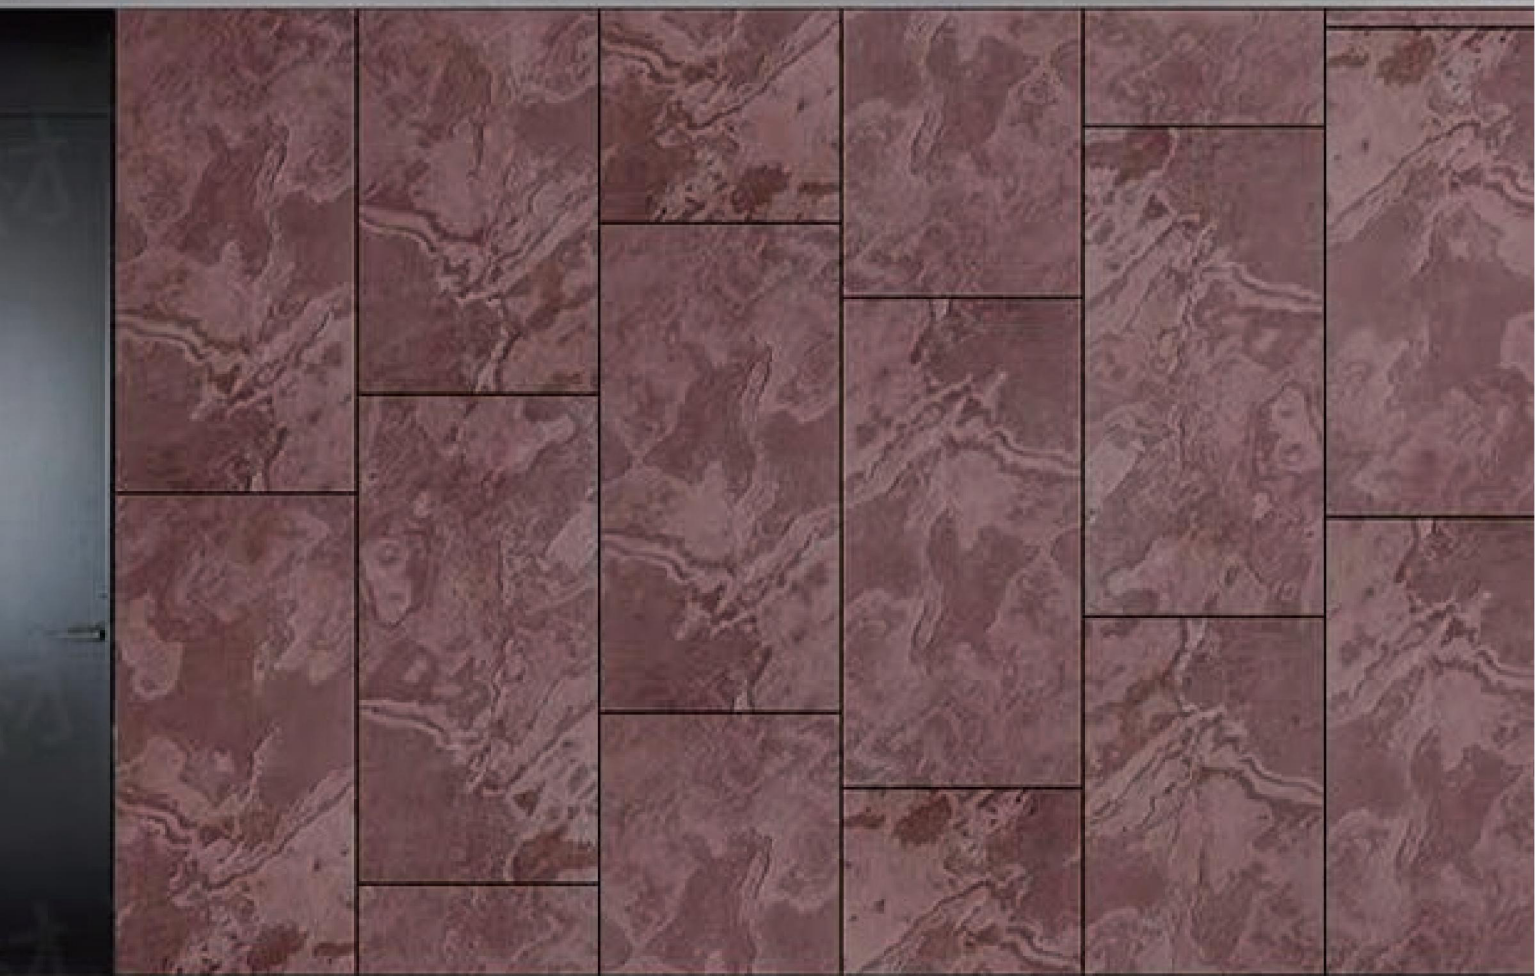

Process: The natural color is separated by nanometer layering
technology to retain the natural texture of stone

Applications: indoor and outdoor, the top of the wall, the furniture such
a origin: India

Technology: Germany

Ultra-thin flexible natural stone. The texture is strong, the flexibility is good, the decorative effect is high atmosphere. In terms of ultrathin and bendable performance, soft stone has a certain similarity with it, but soft stone does not have its light transmission performance. And no natural stone texture natural. Compared with stone, more artistic, light and easy to install and transport, unlike most stone as hard and cold.
